Entity Presentation (We are)

The Directorate General Customs and Taxation (DG TAXUD) mission is to promote fair and sustainable policies that generate revenue for the EU and its Member States and ensure

that EU citizens and businesses benefit from global trade and a safe and secure Single Market protected at its borders.

Directorate A is responsible for the EU Customs policy in all its facets, including general customs policy vis-à-vis the Member States; customs legislation (including the Commission proposal to reform the Customs Union); the Common risk management framework, the customs implications of fiscal and non-fiscal risks; the Joint Analytical Capability for Customs Risk Detection; international coordination and enlargement; and rules of origin and customs valuation. Directorate A is also in the lead for the customs input and implications of EU sanctions policy and the Security Union and is coordinating the implementation of the EU Customs Control Equipment Instrument (CCEI). The Directorate is a dynamic and welcoming team, composed of 6 units and around 170 staff members.

Within Directorate A, Unit TAXUD.A.1 "Customs Policy" plays a key role in the mission of the Directorate-General by identifying, defining and promoting the policy aspects of the Customs Union, ensuring that its different components function in a coordinated and harmonised manner. This includes coordinating policies and relations with international organisations. The unit offers a friendly and stimulating environment and is composed of a dynamic and motivated group of 29 colleagues.

The unit is composed of several sectors – the customs policy governance sector, the transit sector, the customs union performance sector and the customs control equipment instrument sector – and deals with some of the TAXUD customs flagship projects and initiatives including in particular the comprehensive customs reform proposed by the Commission in May 2023 which envisages the creation of a new EU Customs Authority and EU Customs Data Hub. The unit applies a flexible approach with respect to work organisation, and telework is allowed up to 3 days per week. Work in the unit is based on teamwork and cooperation.

Job Presentation (We propose)

A Policy Officer position in the “Performance Evaluation of the Customs Union” team, a small team which is part of the horizontal “customs policy” unit TAXUD A1. The team produces the yearly “Customs Union Performance report”, which is providing a comprehensive overview of the state of the customs union in all its aspects. The team is engaged in the collection and production of statistics, in view of this report and for the benefit of specific analyses and other contributions to customs policy.

Each team member participates in a wide range of activities (data management, data and policy analysis, presentation, drafting, creating visualisations, conducting group of experts from national administrations and responding to internal and external requests for data).

The selected colleague will strengthen the data management part, including extractions from other customs databases and providing analyses and visualisations to support policy needs. S/he will also ensure that policy needs and goals are reflected in the data management cycles, and effectively served by the IT tools.

Jobholder Profile (We look for)

A versatile customs policy officer with a strong affinity for data, databases and presentation of statistics and performance monitoring. These skills can also be demonstrated through appropriate experience.

The selected colleague should be at ease in an international setting (interactions with MS and other countries delegates within the CUP (Customs Union Performance) expert group, and relations with other EU Commission policy and technical units); s/he is curious and prepared to learn and accompany changes.

Some familiarity with EU Customs practices and law is expected, very good knowledge would be a plus.

Good analytical and communication (oral and writing) skills in English are a prerequisite.
