Entity Presentation (We are)

Unit A1 supports EU Member States and associated countries in strengthening their research and innovation systems and capacities and enhancing their performance. It seeks to improve the quantity, quality and impact of national public R&I policy and investment, through reforms in support of the broader European objectives, and push the transformation towards sustainable competitiveness for the benefit of all.

To this end, the unit coordinates the work on the R&I dimension of the European Semester and monitors the implementation of the Recovery and Resilience Plans. Through evidence-based policy dialogue and continuous outreach, the unit acts as an interface between EU, national and subnational R&I systems. In particular, the unit leads on the design of R&I measures to advance Europe as a whole, monitors its implementation and strengthens the R&I dimension of the Cohesion Policy, setting the conditions and enabling better synergies between the two programmes.

The Expert will act as the country desk for one or more EU Member State/s and in that respect gather intelligence on R&I policy developments in this/these Member States and establish an open and collaborative relation to support the improvements of their R&I systems, also through the Enhanced dialogue. He/she will monitor and analyse the R&I policies and performance of the country in question, including in the context of the yearly European Semester cycle and of the Recovery and Resilience Facility. He/she will also contribute to the launching and implementation of activities of the Policy Support Facility and to strengthening the R&I dimension of the use of Cohesion Policy funding in the country in question and enhance synergies between the two programmes. He/she will also contribute to horizontal work in the Unit.

The Expert will need to engage in close contacts with other Commission services (in particular SG, DG ECFIN, DG REGIO, DG GROW), with national and/or regional authorities, and also research institutions, universities and enterprises.
