Entity Presentation (We are)

DG Health and Food Safety (DG SANTE) aims to promote actions that improve access to healthcare, safe food to eat, and protection against epidemics and diseases. Its goal is to build and maintain Europe's high standards on animal and plant health, as well as the most affordable, accessible and high-quality health systems to deliver on these expectations.

Unit E.4 is responsible for policy and legislation concerning pesticides and biocides. This includes various approval processes concerning active substances used in pesticides or biocides, the setting of maximum residue levels in food, but also the establishment of rules for the placing on the market of plant protection or biocidal products. The working area attracts a lot of political and media attention and visibility. The Unit works in an excellent team spirit, with highly committed staff and a friendly and respectful atmosphere.

Job Presentation (We propose)

We offer two positions for a seconded national expert.

Both experts will contribute to the implementation of Regulation (EC) No 1107/2009 on the placing on the market of plant protection products. They will in particular use their technical expertise to contribute to regulatory processes, including the drafting, negotiations with Member States and processing of relevant Commission Implementing Regulations.

Both positions offer challenging and varied tasks as regards risk-management decisions at EU level on the approval or not of active substances used in plant protection products, as well as horizontal topics such as further development of risk management approaches in light of technical and scientific progress, the interplay with Directive 2009/128/EC on the sustainable use of pesticides and with other legislations on chemicals, and contributions to the work at international level related to pesticides (such as with OECD).

The tasks imply frequent contacts with other Commission services, the European Food Safety Authority (EFSA) located in Parma, Member States' authorities including notably during meetings of the Standing Committee on Plants, Animals, Food and Feed, industry representatives, civil society organisations and third countries.

Jobholder Profile (We look for)

We look for two seconded national experts with technical/scientific background who have work experience preferably in the implementation of Regulation (EC) No 1107/2009 concerning the placing on the market of plant protection products or other EU legislation with comparable principles.

Good knowledge of English (orally and in writing) is required – knowledge of other Union languages would be an asset.

If you come from a third country, you must produce evidence of a thorough knowledge of the EU language necessary for the performance of his duties.

Conditions of secondment

During the full duration of your secondment, you must remain employed and remunerated by your employer and covered by your (national) social security system.
