

PROGRAMA *JUNIOR PROFESSIONAL OFFICER* (JPO) EN EL SISTEMA DE NACIONES UNIDAS 2025

Entre las prioridades de la Acción Exterior que desarrolla el Ministerio de Asuntos Exteriores, Unión Europea y Cooperación (MAUEC) figura el incremento de la presencia de españoles dentro del sistema de Naciones Unidas, de acuerdo con el compromiso de España con el multilateralismo.

Para la consecución de dicho objetivo, en los últimos años el Gobierno de España ha aprobado las oportunas contribuciones voluntarias al sistema de Naciones Unidas para aumentar la presencia de españoles en el Programa de Jóvenes Profesionales (en adelante, JPO, en su acrónimo inglés), contribuyendo así a la formación y proyección de jóvenes profesionales de nacionalidad española en el ámbito multilateral.

Estas contribuciones, así como la incorporación de los JPO a los organismos de las Naciones Unidas, se regulan a través de los siguientes acuerdos administrativos: (1) Acuerdo entre el Gobierno de España y la Organización de las Naciones Unidas para la provisión de expertos asociados, hecho en Nueva York el 27 de junio de 2016 (BOE de 26 de septiembre de 2016) y (2) Acuerdo para la provisión de Oficiales Profesionales Jóvenes entre el Gobierno del Reino de España y el Programa de Naciones Unidas para el Desarrollo, hecho en Nueva York el 15 de diciembre de 2021 (BOE de 5 de febrero de 2022).

El proceso de selección para las plazas de JPO que ahora se convocan se realizará entre aquellas personas que cumplan los requisitos establecidos y se llevará a cabo a través de convocatoria pública de acuerdo con los principios de igualdad, mérito y capacidad, sin que en ningún caso pueda suponer el desarrollo de un proceso de acceso al empleo público ni a la función pública, que permita obtener la condición de empleado público.

En base a lo anterior, el MAUEC anuncia la convocatoria de las cinco (5) plazas de JPO con nivel P2 en el sistema de las Naciones Unidas que se indican a continuación:

1. *JPO in Public Information / Social Media* en el Departamento de Comunicaciones Globales / Sección de Redes Sociales, en Nueva York.

VI. Background Information

This position works with the Climate Security Mechanism (CSM) and is located in the CPS Team in the Department of Political and Peacebuilding Affairs (DPPA), at UN Headquarters in New York. DPPA is the lead entity supporting the Secretary-General in the UN's efforts to prevent and resolve conflicts. It monitors and assesses global political developments with an eye to detecting potential crises before they erupt and devising effective responses. In recent years, the linkages between climate change, prevention and sustaining peace have become a key consideration for DPPA. This is reflected in the Department's strategic plan 2023-2026 and in growing efforts to support special political missions, its support to deployed UN Climate, Peace and Security Advisors, Peace and Development Advisers and other field actors in this area.

In 2018, DPPA, the UN Development Programme (UNDP) and the UN Environment Programme (UNEP) jointly formed the "Climate Security Mechanism" (CSM). The Department of Peace Operations (DPO) joined in 2021. The Mechanism currently consists of one professional staff each in DPPA, UNDP, DPO and UNEP, a small secretariat, and a select number of JPOs. The CSM seeks to strengthen UN capacity to address the linkages between climate change, peace and security through better risk assessments, the development of risk prevention and management strategies, advocacy and knowledge management, and targeted capacity building. In practice, this contains a range of activities at the policy and operational levels, carried out in collaboration and coordination with experts from across and beyond the UN system. This includes the deployment and backstopping of Climate, Peace and Security Advisors and Experts, provision of technical advice to UN field missions and Peace and Development Advisers and efforts to integrate climate analysis into mandated reporting to UN bodies. The CSM developed a toolbox and conceptual approach for climate-related security risk assessments that are being rolled out for field implementation in select regions and countries.

Given the complexities of the climate, peace and security agenda and its cross-cutting nature, partnerships are critical for the CSM. The CSM works closely with entities from across the UN system, regional organizations, researchers and civil society to exchange good practices and share experiences. As demand for technical support and partnerships is growing, the CSM is expanding its capacity to analyse and address climate-related security risks around the world.
