

Decision IG.23/10**Amendments to Annex II to the Protocol concerning Specially Protected Areas and Biological Diversity in the Mediterranean**

The Contracting Parties to the Convention for the Protection of the Marine Environment and the Coastal Region of the Mediterranean and its Protocols at their twentieth meeting,

Having regard to the Barcelona Convention for the Protection of the Marine Environment and the Coastal Region of the Mediterranean, and in particular article 23 thereof, which establishes the amendment procedure for annexes to the Barcelona Convention and its Protocols,

Having regard also to the Protocol concerning Specially Protected Areas and Biological Diversity in the Mediterranean, and in particular articles 14 and 16 thereof, on the procedure to amend the annexes to the Protocol and the adoption of common criteria for the inclusion of additional species in the annexes to the Protocol respectively,

Recalling decision IG.17/4 adopted by the Contracting Parties at their fifteenth meeting (COP 15) (Almeria, Spain, 15-18 January 2008) on common criteria for proposing amendments to annexes II and III to the Protocol and decision IG.21/6 adopted by the Contracting Parties at their eighteenth meeting (COP 18) (Istanbul, Turkey, 3-6 December 2013) on amendments to annexes II and III to the Protocol,

Reaffirming the need to ensure that the lists of species appearing in annexes II and III to the Protocol are updated, taking into account the evolution of the conservation status of species, the need for additional protection and the emergence of new scientific data,

*Taking into account the proposal submitted by Spain at the recent meeting of the focal points for the Specially Protected Areas Regional Activity Centre to amend annex II to the Protocol to include four new Anthozoa species (*Isidella elongata*, *Dendrophyllia cornigera*, *Dendrophyllia ramea* and *Desmophyllum dianthus*) listed in the International Union for Conservation of Nature Red List as “critically endangered”, “endangered”, “vulnerable” and “endangered” respectively,*

Taking into account also the need to align the denomination of the species listed in annex II to the Protocol with taxonomic changes that occur frequently and with a rectification concerning the particular taxonomic groups to which species belong,

Having considered the report of the meeting of the focal points for the Specially Protected Areas Regional Activity Centre in May 2017 and its conclusion to include the four proposed Anthozoa species in annex II to the Protocol,

1. *Adopt the amendments to annex II to the Protocol concerning Specially Protected Areas and Biological Diversity in the Mediterranean as set out in annex I to the present decision;*
2. *Request the Depositary to communicate without delay to all Contracting Parties the adopted amendments, pursuant to article 23 (2) (iii) of the Barcelona Convention.*
